**Traditionally good one -
- ghosts will haunt you tonight!!!**

Join us tonight and hear about some of Prague's legendary spirits, emperors passion for the occult, Kafka's ghost, Golem story, the Priest and the prostitute, Mad barber, Hairy man - the serial murderer...In the dark alleys, most hidden corners of unrevealed Old Town lanes, archways and nooks the desperate souls rise from the dead, grope in passageways, rotten graves open...Ghosts are trying to run away from their terrible trial...

ESOTERIC Prague - according to European occult traditions, Prague belongs to a chain of cities ruled by the Lion supreme, other cities include Bath, Prtsmouth and Bristol in England, Delfs in Greece,Ravenna nad Rome in Italy. One of the most delightful elements of the Old Prague are house emblems or signs which prove just how naturally elements of the Cabala, Christian mysticism, Astrology and Magic, formed a part of citizens lives in days now long forgotten. In terms of house signs Prague has no rival. Numbers, letters, crosses, angels, alchemistic elements and objects, symbolic animals and tools of healing, all existed in the Heart of Prague for centuries and gave the city an unparalleled aura of mysticism!!!
